Si, Su Bebe Es Un Genio

Glenn Doman

Si, Su Bebe Es Un Genio Glenn Doman

The first months after birth are vital to the long-term well-being of a child. Yet parents do not have the information they need to make their baby's life as stimulating as it should be. *How Smart Is Your Baby?* provides parents with all the information required to help their baby achieve full potential. The authors first explain infant growth, and then guide parents in creating a home environment that enhances brain development. A developmental profile allows parents to track their child's progress, determine strengths, and recognize where additional stimulation is needed.

About the Author

" Glenn Doman "received his degree in physical therapy from the University of Pennsylvania in 1940. From that point on, he began pioneering the field of child brain development. In 1955, he founded The Institutes' world-renowned work with brain-injured children had led to vital discoveries regarding the growth and development of well children. The author has lived with, studied, and worked with children in more than one hundred nations, ranging from the most civilized to the most primitive. Doman is also the international best-selling author of six books, all part of the Gentle Revolution Series, including "How To Teach Your Baby To Read, How To Teach Your Baby Math, " and "How To Give Your Baby Encyclopedic Knowledge."

" Douglas Doman "is Vice President of The Institutes for the Achievement of Human Potential and the son of founder Glenn Doman. His early years working at The Institutes were spent establishing the School for Human Development for brain-injured young adults. He worked closely with Bruce Hagy to create the world's first Human Development Course, a circuit of physical activities that promote neurological organization and development.
